

DOLCE & GABBANA
smeg

Sicily is my love

Dolce & Gabbana and Smeg join creative forces to create Sicily is my Love, a new unique Made in Italy project.

The small appliances collection is produced by Smeg with an unmistakable Dolce & Gabbana touch.

Toasters, citrus juicers, kettles, blenders and stand mixers all decorated with gold lemons, citrus fruits, prickly pears and bright red cherries are just some of the typical Mediterranean decorations.

All symbols of an aesthetic inextricably associated with Sicily, home to the souls of Domenico Dolce and Stefano Gabbana, and more generally with Italy and its cuisine of which Smeg has always been an interpreter of excellence.

Stand Mixer

10 variable speeds with Smooth start • Die cast body • Stainless steel 4,8lt bowl • Planetary movement • 800W direct drive motor

Stand Mixer

An explosion of colour and liveliness: the golden yellow of lemons, the fiery red of cherries, the intense cerulean of the Sicilian sky, and the green of the prickly pear. The colours sparkle brilliantly, artfully juxtaposed in the cart decorations adorning the stand mixer. Accentuating the whole composition are delicate floral motifs that evoke the theme of spring.

Blender

1,5lt Tritan™ jug • Removable blade assembly • 4 speed levels with Smoothie and ice crush functions • 800W motor with Smooth start

Blender

The blender tells of history and tradition. In the centre of the lower part are the picturesque ruins of the Greek temple of Castor and Pollux, the Dioscuri: the images of the structure, archaeological symbol of Sicily situated in the Valley of the Temples, are artfully rendered on the surface of this small but precious kitchen appliance.

Citrus Juicer

Premium Tritan™ bpa-free juicing bowl • Universal and premium reamer and strainer • 70W motor & automatic on/off • Anti-drip spout

Citrus Juicer

The citrus juicer tells a uniquely Sicilian story: against a red background are three ovals decorated with golden yellow lemons, fragrant Mediterranean oranges and the enchanting image of Mt. Etna on the horizon with prickly pears framing the foreground. As a finishing touch, the object is adorned with different coloured motifs, called cartocci in Sicilian dialect.

Toaster 2 Slice

6 browning levels • 3 extra functions: reheat, defrost and bagel • 2 large compartments • Crumb tray • 950 W power

Toaster 2 Slice

Traditional Sicilian handicraft is the inspiration for the decorations of the 2-slice toaster. This marvellous object is adorned in the manner of bunnuli and quattare, typical terracotta vases from Sicily painted in the same style as the traditional cart. The iconography features various types of birds, including majestic roosters and sailboats heading off towards the Mediterranean horizon.

Kettle

- Soft-opening lid
- Removable stainless steel limescale filter
- 1,7 Lt capacity
- Auto shut-off at 100°C

Kettle

The kettle is decorated with Sicilian cart motifs and colourful patterns. The bottom half is characterised by oval shapes that enclose unique Mediterranean flavours such as yellow lemons, Mediterranean oranges, and fiery red Etna cherries. The final touches that make this precious kettle even more special are the typical Sicilian decorations known as *paparuni*, pictured on the rest of the kettle's surface.
